Address _____

E-mail _____

Farm Number _____ Tract Number _____

Landowner Name _____ #Acres applying for _____

Name to be on check _____

Does the area sit lower/wetter or upper/drier _____

Specifications of Agreement:

1. Spraying must be done before April 1st. Follow the label for Glyphosate spraying.
2. Seeding must take place between April 1- June 15, 2023, Frost Seeding December-February 2024
3. If pollinator habitat is less than ¼ of an acre, the site must be tilled and mulched.
4. If pollinator habitat is over ¼ of an acre a conventional drill must be used. (Ask office for a list of contractors/ Dubois, Warrick, and Gibson offices have drills to rent.)
5. Site evaluated twice: once before seeding to ensure site viability and once after seeding for documentation.
6. Maintenance: leave alone for 3 years, you may top clip at 18 inches or higher if needed.
7. The District in your county will provide the seeds (Seed Mix pre-selected) for your acres, you then will submit invoice for your labor or the contractor’s labor.
8. All aspects of the agreement must meet NRCS specs in order to receive payment.
9. A three-year commitment to maintain the site in pollinator habitat is required.
